

Electric Department Major Projects

Ash Street Rebuild (#8)

Undergrounding the power lines from Ash & Chaco, North along Ash Street to the Step Back Inn as well as the line to Safeway. All that is left to do on this project is to remove the poles which still have phone lines attached.

Tantalus AMI System

Installing system infrastructure, software, and approximately 3,200 Remote Disconnect Meters, replacing current AMR meters with AMI Meters.

McWilliams Underground Extension (#6)

New underground line extension on McWilliams road to the Water Conservation Building. All that remains is metering at the transformer.

217 N Rio Grande Rebuild (#9)

Due to tree problems the electric department is going underground with the power lines near 127 N Rio Grande. A contractor bore under N Rio Grande. City Crews will work to finish project.
